World Health Organization. Paperback. Book Condition: New. Paperback. 84 pages. Dimensions: 9.3in. x 6.3in. x 0.3in. Reports the recommendations and conclusions of an expert committee convened to assess progress in implementation of the Global Malaria Control Strategy, adopted in 1992. Issued at a time when malaria control is one of the highest priorities at WHO, the report offers expert advice on the full range of questions - from the best measures for ensuring early diagnosis and prompt treatment to strategies for the prevention of drug resistance - that can help countries strengthen programmes for control. The difficult question of drug supply in the absence of formal health services is also considered. Subsequent sections offer advice on techniques for monitoring drug resistance and therapeutic efficacy, strategies for the containment of parasite drug resistance, and methods for the prediction and control of malaria epidemics. A section on the prevention of malaria describes various approaches to vector...
