Original publisher: Washington, DC : Federal Aviation Administration, Commercial Space Transportation, 2005. OCLC Number: (OCoLC)74671296 Subject: Launch vehicles (Astronautics) Excerpt: . . . probability adjustments away from the reference value. For example, a subject launch vehicle or launch vehicle subsystem may demonstrate a relatively high degree of reliability after a corrective action, such as the addition of improved guidance and navigation systems, is taken. The demonstrated reliability based on actual flight history could serve as a useful guide for the adjusted failure probability estimate. In such cases, making adjustments away from the reference value may prove reasonable. 7. 3 Engineering approach Demonstrated quality of the engineering approach to launch vehicle processing may guide failure probability adjustments away from the reference value. If, for example, a launch operator demonstrates a substandard level of quality control in its engineering approach to launch vehicle processing, then making adjustments away from the reference value may be reasonable. Also, if a launch operator demonstrates a change in quality control, then adjustments away from the reference value may be reasonable. 8. 0 SUMMARY Conducting valid probability of failure analyses of new expendable...
