APress. Paperback. Book Condition: new. Today, the national debt has topped \$15 trillion, and the yearly deficit for 2012 is projected at a whopping \$1.2 trillion. This new, second edition of Deficits: Why Should I Care? updates all the statistics, charts, and forecasts, while adding a new chapter on how global economies now, for better or worse, affect the U.S. debt and the annual budget deficit. It also includes a new appendix detailing how the U.S. political parties view the debt issue. You will learn: * How to calculate deficits and the national debt * The history of U.S debt and its recent unparalleled growth over the years * How and why the government borrows money * The economic arguments for, and against, accruing a debt * Could we become like Greece if we...
