paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 196 Publisher: Machinery Industry Pub. Date :2011-01-28 version 1. The book production process in accordance with requirements of modern electronic products in the order written. including electronic components. testing. electronic materials selection. before assembly of electronic products preparation. electronic components. soldering. printed circuit board production. installation of electronic products. electronic products. debugging. surface mount electronic components. electronic products. testing and packaging. and all the production process. each chapter are arranged with the appropriate training session . In order to improve management and electronic skills. but also increased the reading of electronic documents and electronic technology products integrated training process two chapters. Book in the selection of advanced and practical. detailing the actual production of modern electronic products. steps can be used as vocational schools and the application of electronic technology. electronic information professional materials. production processes engaged in the operation of electronic and technical personnel have some reference value. Contents: Preface Introduction Chapter 1 1.1 electronic components of the testing process of identification and detection resistor resistor type 1.1.1 -1.1.2 The main parameters of resistor potentiometer 1.1.4 Resistance 1.1.3 (bit) device 1.2 Identification of the test capacitor capacitors and testing the model nomenclature 1.2.1 1.2.2 1.2.3 the main parameters of the capacitor type capacitor and use common principles of detection of 1.3 1.2.4 capacitor inductor inductor identification and detection of 1.3.1 1.3.2 Transformer 1.3.3 inductor and transformer models and naming 1.3.4 inductors and transformers 1.3.5 The main parameters of the selection of inductor and transformer and measuring 1.4 discrete semiconductor devices made of semiconductor identification and detection of 1.4.1 device is a semiconductor diode model nomenclature 1.4.2 1.4.3 1.5.1 transistors measuring 1.5 IC analog integrated circuits digital...
